CALL TO ORDER

The work session began at 6:30 p.m.

DISCUSSION

Members of the Board of Education, community, and school staff met for the seventh Facilities Advisory Committee (FAC) meeting. The meeting began with an agenda overview presented by the committee co-chairs.

Nick Kent of PRA and Dan Davis of C.G. Schmidt took committee members through updated options and pricing based on comments from the last meeting. The group provided feedback and honed in on option 2 for further development to assist in finalizing a recommendation to the school board.

Committee members then reviewed an initial draft of the Community Survey and members Susie Polentini, Peggy Moede, John Huggett, and Kim Krotts volunteered to assist with finalizing the survey for review at the next meeting.

The meeting concluded with FAC members completing Exit Slips listing things committee members learned, want to know more about, and do you feel that the survey draft will yield community input necessary to make solid long term decisions? Basically, are we asking the right questions? Please explain.

ADJOURNMENT

The meeting was adjourned at 8:36 p.m.

Respectfully submitted,

Melissa Thompson
