SCHOOL BOARD WORK SESSION

December 1, 2017

7:00 a.m.

Board Members Present: John Stahl, Susie Polentini, Darin Clark, Peggy Moede, and Aaron Dentz.

Also in attendance: Andrea Rice, Charlie Smith, Charisse Kroner, Kate Garman, Melissa Thompson, Jeremy Struss, Kyle Moore, and Rachel Crockford.

CALL TO ORDER

The work session began at 7:00 a.m.

DISCUSSION

Members of the Board of Education heard from teachers participating in the Science, Math, Technology, and Engineering Curriculum and Programmatic review process about the work to date and anticipated next steps. Teachers across grade levels reported on what they are learning and finding as they pilot both math, science, and engineering resources. Teachers anticipate a recommendation to the board by February for all three areas.

Teachers also presented an update on the process used by the Swallow Strong Committee to review and revise the *Characteristics of Lifelong Learning* and accompanying *I Can* statements. The board was asked to consider approving these updates at the December board meeting for implementation in January, pending that working in the Student Information System Infinite Campus.

Sixth grade students and staff provided an overview of the recent First Lego League Robotics competition and then showcased the robot and course in a classroom.

The work session concluded with administration and school board members reviewing potential questions for this year's *Community Conversations* series and the talking points to use with attendees.

ADJOURNMENT

The meeting was adjourned at 8:53 a.m.

Respectfully submitted,

Melissa Thompson
Superintendent
