DISCUSSION

The School Board heard an update on the Spanish Curriculum and Programmatic Review implementation over the past three years presented by teachers Jeanne Hanson, Linda Moss, and Melissa Losiniecki. Of note is that 90% of the time students are hearing, speaking, reading, and writing in Spanish as well as the growth on the AAPPL assessment, which is designed around international world language standards and taken by students in 3rd, 6th, and 8th grade annually, to measure programmatic goals.

The board then heard referendum communications updates from Melissa Thompson, Nick Kent of PRA, and Kristin Schmidt and Dan Davis of C.G. Schmidt. It was reported that the next in-home mailing should arrive in homes by next Monday, October 15 and that all municipal board meetings had been attended, along with one subdivision association meeting. A review of the presentation for the upcoming meetings at local churches was also completed along with review of content for the November 2 backpack stuffers and general press releases for the district's webpage. Board members reviewed who would be present for tours and questions during Parent-Teacher conferences the week of October 15.

The work session concluded with a discussion of pending policy revisions which will be provided to the board at the regular October meeting on the 18th.
