

## Summary of August 18, 2020 Swallow Reopening Task Force Meeting

- Key Messages:
  - While we wanted to discuss how hard data can be used to move the district from phase to phase, the updates from the county impact these phases somewhat but are not the only thing that will be considered. The factors on (slide 7) still stand and a combination of them will have to always be looked at together, not in isolation.
  - These meetings are not over just because school is starting---our Task Force will continue to gather and discuss new information and make recommendations
  - Face covering information will be forthcoming that is a universal within the feeder districts
  - Nurse Beth's slides and parent information will be coming out in the Thursday Folder.
  - Class lists by August 24
  - School Board update August 26 at about 7pm
  - Welcome Back event Week of August 31

### What's Next for the Task Force?

- Meeting September 1 (Suggested Agenda)
  - County updates--model, revisit metrics that MAY be able to be attached to phases
  - Review other WI schools and states who have opened before us by weeks in some cases (any benchmark districts)
  - Board decisions regarding soft start, policy tweak
