

# Thank you for supporting Family Service Agency of Waukesha, Wisconsin with an auction item for our **May 6 First Annual Race for Impact fundraiser!**

Since 1964, Family Service of Waukesha County has been serving the diverse needs of families of Southeast Wisconsin by delivering mental health treatment and attending to victims of crime with compassion and professionalism. Last year, the agency served more than 2000 people.

This year, even more people have been turning to Family Service for support following the impact of the Covid-19 pandemic and the Waukesha Christmas Parade tragedy. We could not serve these individuals, families and children without the spirit of generosity and commitment from donors like you.

Our programs include child and adult mental health clinics, school based mental health programs and The C.A.R.E. Center.

## WHO?
