Did You Know?

Visual schedules are a technique that can help many children develop both independence skills as well as improve self-esteem. For more information, please click the [link](#) to learn more about visual schedules, their importance and tips for implementation.

Collaboration Corner

There were not any submissions for this month.

How can we help?

Do you have a question or would you like more information on a topic related to special education? Our department is here to support you. Please complete [this form](#) and we can respond to you directly or if you would like to have us share your question and answer with the group, I would be happy to do so as well.
