

# Speech and Debate Club

[Click Here to Register!!!](#)

Unless your child has an older sibling that competed in **Speech and Debate**, or you remember the excitement of gracing the stage yourself, you probably have no idea what **Speech and Debate** is:

**Speech and Debate** (aka Forensics) is competitive Public Speaking, Theatre, and Debate. The purpose of Elementary **Speech and Debate** is to build self-confidence, argumentation ability and oral competency by developing and practicing fundamental public speaking skills.

There are various **Speech and Debate** categories that students will be able to choose from as they progress within the activity. Each category has a set of stipulations that needs to be followed for legal participation as well as a set of criteria that judges will look for to provide valuable feedback to students. Students will have the chance to register for our Spring tournament (04/09/2022) where they will compete in **Speech and Debate** against other Elementary students from around the world!
