

## **Girls' Basketball Summer Camps**

*The Arrowhead girls' basketball program is looking for girls that love the game of basketball or just want to try the sport and see what makes it so awesome! There are 3 different types of camps that girls can participate in this summer. Team Camps are the best place to start. These camps in early June are a great place for players of all abilities to learn the game, build some confidence, work with the varsity basketball players and have fun getting to know girls from other schools. The small court camp in August is also a great place to work on skills while competing in a wide variety of games. Shooting camps are for players looking to fine tune their shot for next season.*

We hope to see you there. Link to summer camp registration:
