AFTER SCHOOL

So fun it won't feel like learning!!

Early Engineers at Swallow Elementary!

After School STEM Enrichment Program

Bricks 4 Kidz classes provide an extraordinary atmosphere for children, where we learn, we build and we play...with LEGO® bricks. Students build a new model each week, designed by B4K engineers and architects, with exciting themes that kids love! We use technic LEGO®'s, teaching students how gears, pins and axels work together to create movement. We have multiple levels of difficulty for each build of the day to accommodate younger or less experienced builders to the older or more seasoned builders. Our models are motorized, designed to give students the skills they will later use in robotics courses, while developing team building skills and HAVING FUN!!! There are six classes per session and sessions are never repeated! Each session will focus on a different theme with new challenging builds.

Engineering Adventures

So you want to be an engineer or architect? Well what are you waiting for? This is your chance! Join us as we put our engineering skills to the test to build bridges, buildings, vehicles and more. We'll learn about different types of careers for you to explore. Do you like to design cities? You might become an urban architect one day! Do you want to build bridges? Then civil engineering might be the job for you! Want to design the next cool electric car? Then you may be destined to become an automotive or mechanical engineer! Come experience engineering adventures with us!
