

# Exterior Feature Feedback for Referendum Project

...

February 7, 2019

# Overview

On Thursday, February 7, 2019 128 students, staff, parents, and community members reviewed mock-ups for the exterior of the replacement portion of the building as a part of the referendum project.

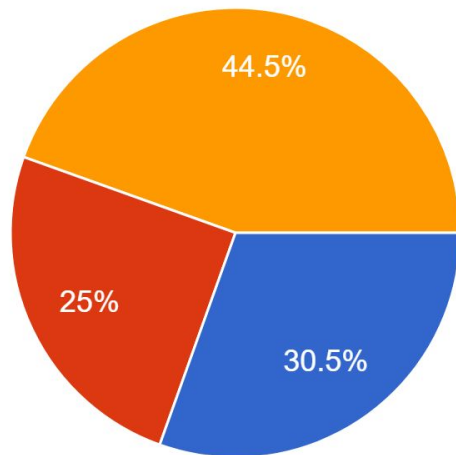

After reviewing the mock-ups, they were asked:

- Which roofline is most appealing to you?
- Which configuration of glass is most appealing to you?
- Which use of brick is most appealing to you?

# Roofline: Overall Feedback

Which roof line is most appealing to you?

128 responses

- Option 1
- Option 2A
- Options 2B/3/4

# Roofline:

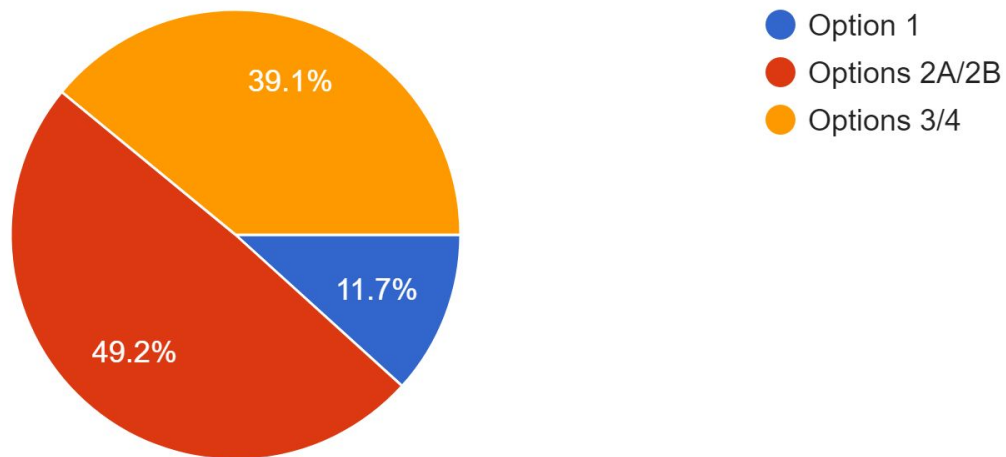

*The roofline rated as most appealing overall is the no-mansard option.*

# Glass: Overall Feedback

Which configuration of glass is most appealing to you?

128 responses

# Glass:

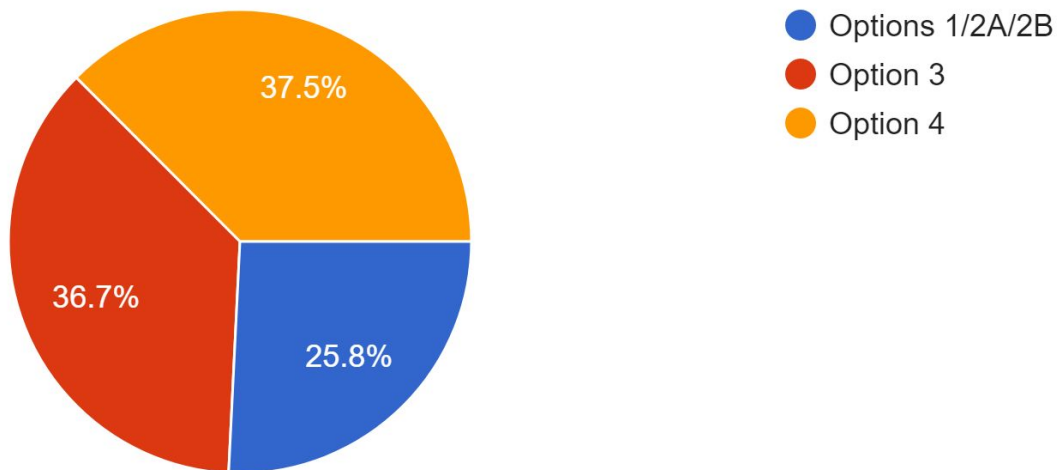

*The one rated as most appealing overall is the more angular upper windows option.*

# Brick: Overall Feedback

Which use of brick is more appealing to you?

128 responses

# Brick:

*Overall the majority of respondents preferred the main portion of the north-facing facade to be red brick.*

*The all red brick facade was the top choice of students whereas the red and cream-city option was the top choice for parents/community members.*

# Next Steps

Thank you for taking the time to share your opinion!

This feedback from the community, as well as comments provided, will help shape the final design for this portion of the building.

Look for more updates and exciting ways to be a part of the referendum project in the coming months by reading the Thursday Folder, next in-home mailing due in early March, and checking our website.
