

REPRODUCTIONS

Reproductions are a great opportunity for parents that would like a framed copy of their student's artwork for another family member or as a gift.

This is the way it works:

- 1. School staff will take the reproduction orders from the parents. Please write down the students info on the Reproduction order form provided by the Art Show manager.**
- 2. Please keep the framed artwork until the show breakdown date.**
- 3. At breakdown Artome staff will remove the art from the frame and leave you with additional blank frames for each reproduction ordered.**
- 4. Artome will take the original art back to our office and make a color copy of the artwork. We will ship the copy and original art back to your school inside a white cardboard envelope.**
- 5. The student can take the artwork home and easily insert the art inside the frames.**

Ask your Art Show manager if you have any questions.
